

U.S. DEPARTMENT OF ENERGY

# WHAT HAS BEEN DONE TO DATE ?

## Facilities Demolition

- 25 inactive facilities have been demolished in the last 5 years.
- A large portion of the waste from the demolition of the X-533 Switchyard was able to be recycled.
  - Recycled 16 transformers
  - Recycled almost 9,000,000 pounds of clean scrap metals
  - Recycled more than 267,000 gallons of transformer oil
- Recycling generated more than \$3,700,000 in revenues. Half of this money will be retained by the DOE Community Reuse Organization (Southern Ohio Diversification Initiative [SODI]) for economic development projects in the community.
