

U.S. DEPARTMENT OF ENERGY

WHERE SHOULD THE WASTE GO?

On-site Disposal Option

Location Factors

- Best available geology
- Compliance with the regulations
- Compatible with future site uses
- Cost
- Logistics

Size/Volume Factors

- Volume of non-recyclable contaminated debris
- Amount of soil to mix with debris for structural stability
- Desire to consolidate existing landfills
- Waste Acceptance Criteria
- Desired height

OUR SITE.
OUR FUTURE.
